

ROOFING SOLUTIONS FOR ENTERTAINMENT VENUES

**INTELLIGENT
ROOFING SOLUTIONS**

Delivering great performance.

Entertainment venues, theme parks and museums all have unique roofing considerations. FiberTite roofing systems are not only aesthetically pleasing; they have demonstrated their long-term reliability.

The show must go on... and on.

FiberTite's unique, proprietary formula and manufacturing processes make it ideal for entertainment venues. FiberTite offers aesthetic appeal, custom color matching and DuPont Tedlar® for long lasting good looks.

FiberTite also contains the highest DuPont Elvaloy® KEE content, remaining flexible and delivering outstanding protection in any setting. In fact, FiberTite is the only membrane to exceed the ASTM D 6754-2 specification for KEE-based sheet roofing.

FiberTite is strong enough to withstand the most extreme weather and environmental challenges, from intense high temperatures, UV rays, hurricane-strength winds, torrential rains and freezing cold.

Beyond opening night.

They all look good at first, but the real cost of a roofing system is more than just the initial expense. The true cost has to be measured over the effective life of the roof. What does it cost to maintain and repair your roof? What is the energy savings component built into your roof? How long will the roof last? All these components and more must be considered to understand the true roofing cost. It's something called life cycle costing, and one of our representatives would be happy to demonstrate it for you. Whether it's a new roof or a re-roofing project, FiberTite roofing systems are cost efficient and proven to require minimal maintenance and virtually no repair costs. In addition, FiberTite is both Energy Star and Cool Roof compliant and conforms to all LEED standards.
